

Why Is Colorado Bed & Barn Special?

Words and photos really cannot describe the serenity and beauty here - plus it just feels good.

Imagine sitting on the deck after a long day of driving, your horses are comfortable, munching hay in their pens. As you are enjoying the view of Pikes Peak, the sky is crystal blue, the aspens are quaking, the air smells of pine and the sun is shining through the tree tops. The humming birds are zooming around at a frenzied pace, playing "king of the feeder" and a couple of deer wander through the yard. Life is good.

Lorrie & Al make sure that you are comfortable and have everything you need. They provide valuable "local" information about the best trails to ride, restaurants to dine and the latest events in the area.

Sound too good to be true? Not at Colorado Bed & Barn this is reality!
